

Shape the Future With Us

JPK Instruments AG is a world-leading manufacturer of nanoanalytic instruments, particularly atomic force microscope (AFM) systems and optical tweezers, for a broad range of applications reaching from soft matter physics to nano-optics, from surface chemistry to cell and molecular biology. Headquartered in Berlin we develop and manufacture high-end scientific instruments in Germany for the international market.

We are looking for an applications scientist with a strong scientific background for a challenging position in Berlin:

Applications Scientist [f/m]

Your tasks

- Demonstration of our scientific instruments
- Supporting our international applications team with installations, user training and technical support
- Application seminars and presentations at international conferences and workshops
- Close cooperation with our sales and development staff to open up new application fields
- Interface between international customers and the development team
- Testing of hardware- and software components
- Geographic focus: worldwide

What we expect

- Degree or postgraduate degree in physics, biophysics, physical chemistry or similar field
- Excellent technical understanding and quick comprehension of new material
- Strong background in Atomic Force Microscopy (AFM) in air and liquids, preferably on biological or polymer samples
- Experience in nanotechnology, cell biology, molecular biology, polymer science or similar fields would be beneficial
- Confident customer interactions
- Fluent language skills in English (written and spoken) and German
- Ability to work well with other people, to cooperate, and to share success with the whole team
- Willingness to travel is important

We offer ...

... interesting and challenging tasks in one of the most exciting fields of modern technology, namely NanoBiotechnology, a work environment that is very cooperative, and flexible, but highly professional. You will join a young and innovative team, working in creative surroundings.

Interested?

If you feel challenged by this job offer, we are looking forward to receive your application either in English or in German. Please send it **electronically only, with reference to job number "BE-ASC-67" and your name, to stellen@jpk.com**.
